Stand Shoulder to Shoulder with Your Men in the Fighting Forces

No, we aren't expecting you to fight with our men on the front lines of the battle field, even though that is what the women of our valiant allied nations are doing. But we do need you women of America to relieve our soldiers for active duty. That is the chief function of the WAC.

Same Dose For Koiso

The new Japanese government of Premier Gen. Kuniaki Koiso is now in office. It lost no time in announcing its intentions, at least as far as the outside world is concerned.

More Rumors

With Red armies drawing ever nearer the German border on a our rail transport moving, and that wide front, peace rumors will increase in frequency and in var the latest is a report Germans would prefer to surrender to the Western all to often with greedy chiselers Allies instead of to Russia. The basis for this is the presumption Hitler determined to get there and back would get more lenient consideration from the United States and Britain no matter what. han he has reason to expect from Russia.

From Russia, this theory holds, the Germans can expect nothing but vengeance, but from the United States they might possibly receive treatment almost as lenient as that accorded the Italians.

No doubt this is one of the things now being discussed in Germany. But the speed with which the Russians are converging on Hitler's lair does not give the Germans time for prolonged discussion, and what the German people think may never become known. The Nazi leaders continue to do the talking. And they will not surrender to either Allied force so long as they have an army that can be goaded into battle.

As a point of cold fact, it makes no difference by which army Hitler is captured. The plan of surrender has been worked out to the last detail. For your child's physical and moral Should Stalin's troops reach Berlin first, the result would be no different safety, and your peace of mind it than if the city were occupied by American and British armies

Joint occupation of the country will follow defeat, with details of time. Begin to train the child as the unconditional surrender rapidly applied. When a Railroad carries a Railroad THAT'S NEWS!

ND that's exactly what's happen-A ing today on the Erie and other American Railroads. Locomotives, freight cars, and essential replacement parts are made here at home for use in the invasion areas. Loaded in sections, or actually carried in tow, they travel by rail to embarkation points. Placed in operation overseas, they form a final link in the chain of supply which begins in factories and farms here in America.

By the end of this year, 4,000 locomotives and 60,000 freight cars produced in this country will be in active service overseas. And these are only a small part of the tremendous war load now being carried by your railroads.

But we're getting the job done, and with the help of the public,

shippers, and government agencies, the Erie and other American Railroads will continue to carry the load for Victory.

Famous 165th Infantry Regiment Distinguishes Itself On Saipan

By CLINTON GREEN

(I. N. S. Staff Correspondent) REGIMENTAL COMMAND POST, 165th Regiment, Saipan, July 11.—(Delayed)—There's probably a wide smile of satisfaction on the face of Father Duffy's statue in Times Square today. For this day the O'Briens and

"We've been with the Marines so long, we're getting to be known as '16th Marines," said Lieut.-Col. Joseph T. Hart of Elmhurst, N. Y .. regimental commander.

"I know of no job since the regiment fought in the Revolutionary War, which compares with the job we've done here," Hart recalled today, as he rubbed two weeks' growth of whiskers.

"There is no singling out any one man for a certain job done. The job here has been so outstanding that it was accomplished only by close teamwork, with every man keeping his eye on the ball and following through," Colonel Hart explained

The 165th Regiment came ashore toward the close of the second day of the invasion of Saipan, the first army unit landed. From that time On the morning of July 10-23

ays after they went into action-"The men just didn't have time for either hot coffee or hot food,'

Hart recalled. Went Through Plenty

"What the men went through here on Saipan is almost unbelievable. It would be considered beyond human endurance-climate, terrain, cold field rations. They took it and boy, did they dish it out!

As this is being written the last assignment of othe "Fighting Irish the regimental command post.

"We've killed more than 500 Japs since Saipan has been secured,"

"It's well known that the regiment is mostly Irish but it has 'others' Colonel Hart reminded me. "We've got Cohens, Littmans, and Lehmans -and some of them have been with us so long that we call them "Murphy" or "Kelley." "Hell, names don't mean much when you're fighting!'

State Unions To Meet Saturday To Plan Activities Of Fall Campaign

"GROCERS are working overtime these days to keep people supplied with good, wholesome food. It's no easy job, what with rationing, government regulations, shortages of food and manpower. Yet you'll always find your grocer ready and willing to help iron out your food problems. His friendship means more than ever these days.

"Among the good things your grocer sells is Bell Enriched White Bread. Here's the ideal loaf for you and your family. Fine-tasting, smooth-textured, brimful of vitamin and mineral factors. Delicious with meals, and a big help in cooking, too.

"Ask for Bell Enriched White Bread at your neighborhood grocer's. And tell him how well-pleased you are with his friendly counsel and daily food buying assistance."
